Score Keeping Sports Ball

The latest advancement in sports, a score-keeping ball! Keep an accurate record of your game and performance. Not just fun but this advancement can improve your game. Get your statistics and track your improvements simply by playing.

Electronic insert with soft cover, keeps score of the game. This solves the problem of players forgetting the score. The invention can be advertised on TV with a sports player feeling triumphant upon keying in the updated score. The ball weight balances the light electronic insert with tiny weights elsewhere inside the ball.

This feature applies to footballs, soccer and other balls.

A must for every coach serious about winning.
